Journal of PHOTOCHEMISTRY AND PHOTOBIOLOGY B:BIOLOGY

Subject Index of Volume 38

Adaptive response
antioxidant adaptive response in human blood mononuclear cells exposed to UVB, 152
Adenine
quantum yields of adenine photodimerization in poly(deoxyadenylic acid) and DNA, 81
Adenovirus
cross-resistance to photofrin-mediated photodynamic therapy and UV light and recovery from photodynamic therapy damage in Rif-8A mouse fibrosarcoma cells measured using viral capacity, 143
Airway hyperreactivity
photopheresis, a possible therapy for airway hyperreactivity?, 228
Algal zonation
influence of UV radiation on the photosynthesis of Arctic macroalgae in the field, 40
Alkaline elution
activity of 3-carbethoxyangelicin photolysis products, 189
5-Aminolaevulinic acid
in vivo fluorescence kinetics of porphyrins following intravesical instillation of 5-aminolaevulinic acid in normal and tumour-bearing rat bladders, 158
5-Aminolaevulinic acid (ALA)
the efficacy of an iron chelator (CP94) in increasing cellular protoporphyrin IX following intravesical 5-aminolaevulinic acid administration: an in vivo study, 114
Aminolevulinic acid
the importance of fluorescence distribution and kinetics of ALA-induced PpIX in the bladder in photodynamic therapy, 269
5-Aminolevulinic acid
on-line fluorescence of human tissues after oral administration of 5-aminolevulinic acid, 209
Amphotericin B
photodynamic inactivation of ion channels formed by the polyene antibiotic amphotericin B in lipid membranes, 129
Angelicins
activity of 3-carbethoxyangelicin photolysis products, 189
Antagonism
fluence rate as a determinant of synergistic interaction under simultaneous action of UV light and mild heat in *Saccharomyces cerevisiae*, 123
Anthocyanin
a red light signal distinct from the far-red-absorbing form of phytochrome in anthocyanin induction of *Sorghum bicolor*, 70
Antioxidant enzymes
antioxidant adaptive response in human blood mononuclear cells exposed to UVB, 152
Asthma
photopheresis, a possible therapy for airway hyperreactivity?, 228
Avidin
photo-reversible binding of thrombin to avidin by means of a photolabile inhibitor, 61
Bacteriochlorin *a*
singlet oxygen producing photosensitizers in photophoresis, 203
Bacteriophage T7 survival
toxicity and repair of psoralen adducts in bacteriophage T7, 48
Benzoporphyrin derivative
singlet oxygen producing photosensitizers in photophoresis, 203
Biotin
photo-reversible binding of thrombin to avidin by means of a photolabile inhibitor, 61
Bladder cancer
in vivo fluorescence kinetics of porphyrins following intravesical instillation of 5-aminolaevulinic acid in normal and tumour-bearing rat bladders, 158
Blepharisma japonicum
artificial models of biological photoreceptors: effect of quenchers on the fluorescence properties of hypericin embedded in liposomes, 245
Blue light
interaction between phytochrome and the blue light photoreceptor system in *Mougeotia*: temperature dependence, 35
inhibition of pteridine biosynthesis eliminates blue-light dependent stimulation of red-light saturated photosynthesis in *Laminaria saccharina* (L.) Lamouroux, 274
Brassica juncea
involvement of proline in protecting thylakoid membranes against free radical-induced photodamage, 253

Carcinogenesis
biological effects of narrow-band (311 nm TL01) UVB irradiation: a review, 99
Cell cultures
inhibiting effects of antioxidants on drug-induced phototoxicity in cell cultures Investigations with sulphonamide-derived oral antidiabetics and diuretics, 88
Cell culture study
indocyanine green: Intracellular uptake and phototherapeutic effects in vitro, 178
Cellular uptake
differential cytotoxic effects induced after photosensitization by hypericin, 136
Chemiluminescence
oxidative stress and in vivo chemiluminescence in mouse skin exposed to UVA radiation, 215
Chlamydomonas
electric currents evoked by double-flash excitation of the phototactic alga *Chlamydomonas reinhardtii*, 76
Chlorin derivatives
in vitro photo-activation of newly synthesized chlorin derivatives with red-light-emitting diodes, 54
Chloroplast movement
interaction between phytochrome and the blue light photoreceptor system in *Mougeotia*: temperature dependence, 35

Elsevier Science S.A.

Cis photo-isomer
photo-reversible binding of thrombin to avidin by means of a photolabile inhibitor, 61
Complex III
laser flash photolysis studies of electron transfer in Complex III from yeast mitochondria, 184
Confocal laser microscopy
differential cytotoxic effects induced after photosensitization by hypericin, 136
Conjugated diene
involvement of proline in protecting thylakoid membranes against free radical-induced photodamage, 253
Contact hypersensitivity
singlet oxygen producing photosensitizers in photophoresis, 203
Cryptic red light signal (CRS)
a red light signal distinct from the far-red-absorbing form of phytochrome in anthocyanin induction of *Sorghum bicolor*, 70
Cryptochrome
interaction between phytochrome and the blue light photoreceptor system in *Mougeotia*: temperature dependence, 35
Cyanine dye
spectral properties of 3,3′-diethyloxadicarbocyanine included in phospholipid liposomes, 94
Cytochrome *c*
production of the free radicals $O_2^{\cdot -}$ and $^{\cdot}OH$ by irradiation of the photosensitizer zinc(II) phthalocyanine, 196
Cytotoxicity
differential cytotoxic effects induced after photosensitization by hypericin, 136

Delayed-type hypersensitivity
singlet oxygen producing photosensitizers in photophoresis, 203
Desferrioxamine (DFO)
the efficacy of an iron chelator (CP94) in increasing cellular protoporphyrin IX following intravesical 5-aminolaevulinic acid administration: an in vivo study, 114
1,2-Diethyl-3-hydroxypyridin-4-one (CP94)
the efficacy of an iron chelator (CP94) in increasing cellular protoporphyrin IX following intravesical 5-aminolaevulinic acid administration: an in vivo study, 114
Diuretics
inhibiting effects of antioxidants on drug-induced phototoxicity in cell cultures Investigations with sulphonamide-derived oral antidiabetics and diuretics, 88
DNA
quantum yields of adenine photodimerization in poly(deoxyadenylic acid) and DNA, 81
DNA photolyase
electronic energy transfer in DNA photolyase: a molecular orbital study, 31
DNA photoproducts
toxicity and repair of psoralen adducts in bacteriophage T7, 48
DNA repair
toxicity and repair of psoralen adducts in bacteriophage T7, 48
cross-resistance to photofrin-mediated photodynamic therapy and UV light and recovery from photodynamic therapy damage in Rif-8A mouse fibrosarcoma cells measured using viral capacity, 143
6,4,4′-trimethylangelicin photoadduct immunodetection in DNA: induction and repair in Fanconi's anemia and normal human fibroblasts, 220
Dynamic binding equilibrium
excited triplet state photophysics of the sulphonated aluminium phthalocyanines bound to human serum albumin, 10

Electron microscopy
ultrastructural changes in chondriome of human lymphocytes after irradiation with He–Ne laser: appearance of giant mitochondria, 25
Electron paramagnetic resonance
production of the free radicals $O_2^{\cdot -}$ and $^{\cdot}OH$ by irradiation of the photosensitizer zinc(II) phthalocyanine, 196
Electron transfer kinetics
laser flash photolysis studies of electron transfer in Complex III from yeast mitochondria, 184
Electron transport
thermoluminescence studies on the photoinhibition of pothos leaf discs at chilling, room and high temperature, 164
Energy transfer
spectral properties of 3,3′-diethyloxadicarbocyanine included in phospholipid liposomes, 94
Enzyme induction
antioxidant adaptive response in human blood mononuclear cells exposed to UVB, 152
Extracorporeal photochemotherapy
singlet oxygen producing photosensitizers in photophoresis, 203

Factor X_a
photo-reversible binding of thrombin to avidin by means of a photolabile inhibitor, 61
Fanconi's anemia fibroblasts
6,4,4′-trimethylangelicin photoadduct immunodetection in DNA: induction and repair in Fanconi's anemia and normal human fibroblasts, 220
Fluence rate
fluence rate as a determinant of synergistic interaction under simultaneous action of UV light and mild heat in *Saccharomyces cerevisiae*, 123
Fluorescence
influence of UV radiation on the photosynthesis of Arctic macroalgae in the field, 40
in vivo fluorescence kinetics of porphyrins following intravesical instillation of 5-aminolaevulinic acid in normal and tumour-bearing rat bladders, 158
the importance of fluorescence distribution and kinetics of ALA-induced PpIX in the bladder in photodynamic therapy, 269
Fluorescence lifetime
photophysics of disulphonated aluminium phthalocyanine in reverse micelles of Aerosol OT, 18
Fluorescence quenching
spectral properties of 3,3′-diethyloxadicarbocyanine included in phospholipid liposomes, 94
Fluorophore micro-distribution
reconstruction of in vivo skin autofluorescence spectrum from microscopic properties by Monte Carlo simulation, 234
Free radicals
involvement of proline in protecting thylakoid membranes against free radical-induced photodamage, 253

Gastrointestinal cancer
on-line fluorescence of human tissues after oral administration of 5-aminolevulinic acid, 209
Giant mitochondria
ultrastructural changes in chondriome of human lymphocytes after irradiation with He–Ne laser: appearance of giant mitochondria, 25

He–Ne laser
ultrastructural changes in chondriome of human lymphocytes after irradiation with He–Ne laser: appearance of giant mitochondria, 25
HPLC analysis
quantum yields of adenine photodimerization in poly(deoxyadenylic acid) and DNA, 81
Human serum albumin
excited triplet state photophysics of the sulphonated aluminium phthalocyanines bound to human serum albumin, 10

Human skin
reconstruction of in vivo skin autofluorescence spectrum from microscopic properties by Monte Carlo simulation, 234
Hydroxyl radical
production of the free radicals $O_2^{\cdot -}$ and $^{\cdot}OH$ by irradiation of the photosensitizer zinc(II) phthalocyanine, 196
Hyman lymphocytes
ultrastructural changes in chondriome of human lymphocytes after irradiation with He–Ne laser: appearance of giant mitochondria, 25
Hypericin
differential cytotoxic effects induced after photosensitization by hypericin, 136

Immunosuppression
biological effects of narrow-band (311 nm TL01) UVB irradiation: a review, 99
Indocyanine green
indocyanine green: Intracellular uptake and phototherapeutic effects in vitro, 178
Intracellular uptake
indocyanine green: Intracellular uptake and phototherapeutic effects in vitro, 178
Ion channel
photodynamic inactivation of ion channels formed by the polyene antibiotic amphotericin B in lipid membranes, 129
Iron chelator
the efficacy of an iron chelator (CP94) in increasing cellular protoporphyrin IX following intravesical 5-aminolaevulinic acid administration: an in vivo study, 114

Keratinocytes
indocyanine green: Intracellular uptake and phototherapeutic effects in vitro, 178
Kinetics
kinetic studies of the photosensitized oxidation ($O_2(^1\Delta_g)$-mediated) of tryptophan-alkyl esters in Triton X-100 micellar solutions, 107

Lactonization
photo-reversible binding of thrombin to avidin by means of a photolabile inhibitor, 61
Laminaria saccharina (Phaeophyta)
inhibition of pteridine biosynthesis eliminates blue-light dependent stimulation of red-light saturated photosynthesis in *Laminaria saccharina* (L.) Lamouroux, 274
Leguminosae
quenching of singlet molecular oxygen by natural furan diterpenes, 169
Light dosimetry
PDT light dosimetry revisited, 258
Light-emitting diodes
in vitro photo-activation of newly synthesized chlorin derivatives with red-light-emitting diodes, 54
Lipid membrane
photodynamic inactivation of ion channels formed by the polyene antibiotic amphotericin B in lipid membranes, 129
Lipid peroxidation
quenching of singlet molecular oxygen by natural furan diterpenes, 169
oxidative stress and in vivo chemiluminescence in mouse skin exposed to UVA radiation, 215
Liposome
spectral properties of 3,3′-diethyloxadicarbocyanine included in phospholipid liposomes, 94
production of the free radicals $O_2^{\cdot -}$ and $^{\cdot}OH$ by irradiation of the photosensitizer zinc(II) phthalocyanine, 196
Long-range energy transfer
electronic energy transfer in DNA photolyase: a molecular orbital study, 31
Low temperature
interaction between phytochrome and the blue light photoreceptor system in *Mougeotia*: temperature dependence, 35

Macroalgae
influence of UV radiation on the photosynthesis of Arctic macroalgae in the field, 40
Malondialdehyde
involvement of proline in protecting thylakoid membranes against free radical-induced photodamage, 253
Membrane
does the in-vitro efficiency of meso-tetrahydroxy-phenyl-chlorin depend on pre-treatment of sensitizer?, 241
8-Methoxypsoralen
toxicity and repair of psoralen adducts in bacteriophage T7, 48
singlet oxygen producing photosensitizers in photophoresis, 203
photopheresis, a possible therapy for airway hyperreactivity?, 228
Methylene blue
kinetic studies of the photosensitized oxidation ($O_2(^1\Delta_g)$-mediated) of tryptophan-alkyl esters in Triton X-100 micellar solutions, 107
Microscopic spectral analysis
reconstruction of in vivo skin autofluorescence spectrum from microscopic properties by Monte Carlo simulation, 234
Mild heat
fluence rate as a determinant of synergistic interaction under simultaneous action of UV light and mild heat in *Saccharomyces cerevisiae*, 123
Moderately low temperature (MLT)
a red light signal distinct from the far-red-absorbing form of phytochrome in anthocyanin induction of *Sorghum bicolor*, 70
Molecular orbital calculations
electronic energy transfer in DNA photolyase: a molecular orbital study, 31
Monoclonal antibody for TMA-photoinduced monoadducts
6,4,4′-trimethylangelicin photoadduct immunodetection in DNA: induction and repair in Fanconi's anemia and normal human fibroblasts, 220
Monte Carlo simulation
reconstruction of in vivo skin autofluorescence spectrum from microscopic properties by Monte Carlo simulation, 234
Mougeotia
interaction between phytochrome and the blue light photoreceptor system in *Mougeotia*: temperature dependence, 35
mTHPC
does the in-vitro efficiency of meso-tetrahydroxy-phenyl-chlorin depend on pre-treatment of sensitizer?, 241

Near-IR (NIR) emission
quenching of singlet molecular oxygen by natural furan diterpenes, 169
Normal human fibroblasts
6,4,4′-trimethylangelicin photoadduct immunodetection in DNA: induction and repair in Fanconi's anemia and normal human fibroblasts, 220
Nuclear-encoded protein
protein transport into and across the thylakoid membrane, 1

On-line fluorescence
on-line fluorescence of human tissues after oral administration of 5-aminolevulinic acid, 209
Oral anti-diabetics
inhibiting effects of antioxidants on drug-induced phototoxicity in cell cultures Investigations with sulphonamide-derived oral anti-diabetics and diuretics, 88

Oxidative stress
oxidative stress and in vivo chemiluminescence in mouse skin exposed to UVA radiation, 215
Oxygen
does the in-vitro efficiency of meso-tetrahydroxy-phenyl-chlorin depend on pre-treatment of sensitizer?, 241
Oxygen evolution
thermoluminescence studies on the photoinhibition of pothos leaf discs at chilling, room and high temperature, 164
Ozone
UV-B enhancements at Punta Arenas, Chile, 174
Ozone hole
UV-B enhancements at Punta Arenas, Chile, 174

PDT
does the in-vitro efficiency of meso-tetrahydroxy-phenyl-chlorin depend on pre-treatment of sensitizer?, 241
Pharmacokinetics
in vivo fluorescence kinetics of porphyrins following intravesical instillation of 5-aminolaevulinic acid in normal and tumour-bearing rat bladders, 158
Phenanthroperylenequinone
differential cytotoxic effects induced after photosensitization by hypericin, 136
Photo-activation
in vitro photo-activation of newly synthesized chlorin derivatives with red-light-emitting diodes, 54
photo-reversible binding of thrombin to avidin by means of a photolabile inhibitor, 61
Photodamage
involvement of proline in protecting thylakoid membranes against free radical-induced photodamage, 253
Photodimerization
quantum yields of adenine photodimerization in poly(deoxyadenylic acid) and DNA, 81
Photodynamic therapy
excited triplet state photophysics of the sulphonated aluminium phthalocyanines bound to human serum albumin, 10
photophysics of disulphonated aluminium phthalocyanine in reverse micelles of Aerosol OT, 18
cross-resistance to photofrin-mediated photodynamic therapy and UV light and recovery from photodynamic therapy damage in Rif-8A mouse fibrosarcoma cells measured using viral capacity, 143
on-line fluorescence of human tissues after oral administration of 5-aminolevulinic acid, 209
PDT light dosimetry revisited, 258
the importance of fluorescence distribution and kinetics of ALA-induced PpIX in the bladder in photodynamic therapy, 269
Photodynamic therapy (PDT)
the efficacy of an iron chelator (CP94) in increasing cellular protoporphyrin IX following intravesical 5-aminolaevulinic acid administration: an in vivo study, 114
differential cytotoxic effects induced after photosensitization by hypericin, 136
production of the free radicals $O_2^{\cdot -}$ and $^{\cdot}OH$ by irradiation of the photosensitizer zinc(II) phthalocyanine, 196
Photoelectric signals
electric currents evoked by double-flash excitation of the phototactic alga *Chlamydomonas reinhardtii*, 76
Photofrin®
singlet oxygen producing photosensitizers in photophoresis, 203
PDT light dosimetry revisited, 258
Photoimmunology
singlet oxygen producing photosensitizers in photophoresis, 203
Photoinhibition
influence of UV radiation on the photosynthesis of Arctic macroalgae in the field, 40
thermoluminescence studies on the photoinhibition of pothos leaf discs at chilling, room and high temperature, 164
Photo-isomerization
photo-reversible binding of thrombin to avidin by means of a photolabile inhibitor, 61
Photo-oxidative stress
antioxidant adaptive response in human blood mononuclear cells exposed to UVB, 152
Photopheresis
photopheresis, a possible therapy for airway hyperreactivity?, 228
Photophoresis
singlet oxygen producing photosensitizers in photophoresis, 203
Photoprotectors
oxidative stress and in vivo chemiluminescence in mouse skin exposed to UVA radiation, 215
Photoreception
artificial models of biological photoreceptors: effect of quenchers on the fluorescence properties of hypericin embedded in liposomes, 245
Photoreceptor
inhibition of pteridine biosynthesis eliminates blue-light dependent stimulation of red-light saturated photosynthesis in *Laminaria saccharina* (L.) Lamouroux, 274
Photoreduction
laser flash photolysis studies of electron transfer in Complex III from yeast mitochondria, 184
Photosensitization
photodynamic inactivation of ion channels formed by the polyene antibiotic amphotericin B in lipid membranes, 129
differential cytotoxic effects induced after photosensitization by hypericin, 136
production of the free radicals $O_2^{\cdot -}$ and $^{\cdot}OH$ by irradiation of the photosensitizer zinc(II) phthalocyanine, 196
Photosensitizer
does the in-vitro efficiency of meso-tetrahydroxy-phenyl-chlorin depend on pre-treatment of sensitizer?, 241
Photosensory transduction
artificial models of biological photoreceptors: effect of quenchers on the fluorescence properties of hypericin embedded in liposomes, 245
Photosynthesis
influence of UV radiation on the photosynthesis of Arctic macroalgae in the field, 40
inhibition of pteridine biosynthesis eliminates blue-light dependent stimulation of red-light saturated photosynthesis in *Laminaria saccharina* (L.) Lamouroux, 274
Photosystem II
thermoluminescence studies on the photoinhibition of pothos leaf discs at chilling, room and high temperature, 164
Phototaxis
electric currents evoked by double-flash excitation of the phototactic alga *Chlamydomonas reinhardtii*, 76
Phototoxicity
inhibiting effects of antioxidants on drug-induced phototoxicity in cell cultures Investigations with sulphonamide-derived oral anti-diabetics and diuretics, 88
indocyanine green: Intracellular uptake and phototherapeutic effects in vitro, 178
Phthalocyanine
excited triplet state photophysics of the sulphonated aluminium phthalocyanines bound to human serum albumin, 10
photophysics of disulphonated aluminium phthalocyanine in reverse micelles of Aerosol OT, 18
Phytochrome
interaction between phytochrome and the blue light photoreceptor system in *Mougeotia*: temperature dependence, 35

a red light signal distinct from the far-red-absorbing form of phytochrome in anthocyanin induction of *Sorghum bicolor*, 70
Proline
involvement of proline in protecting thylakoid membranes against free radical-induced photodamage, 253
Protein transport
protein transport into and across the thylakoid membrane, 1
Protoporphyrin IX
in vivo fluorescence kinetics of porphyrins following intravesical instillation of 5-aminolaevulinic acid in normal and tumour-bearing rat bladders, 158
on-line fluorescence of human tissues after oral administration of 5-aminolevulinic acid, 209
the importance of fluorescence distribution and kinetics of ALA-induced PpIX in the bladder in photodynamic therapy, 269
Pteridine biosynthesis
inhibition of pteridine biosynthesis eliminates blue-light dependent stimulation of red-light saturated photosynthesis in *Laminaria saccharina* (L.) Lamouroux, 274

Quantum yield
quantum yields of adenine photodimerization in poly(deoxyadenylic acid) and DNA, 81
Quenchers
artificial models of biological photoreceptors: effect of quenchers on the fluorescence properties of hypericin embedded in liposomes, 245

Radiochemical assay
quantum yields of adenine photodimerization in poly(deoxyadenylic acid) and DNA, 81
Rose bengal
photodynamic inactivation of ion channels formed by the polyene antibiotic amphotericin B in lipid membranes, 129

Saccharomyces cerevisiae
fluence rate as a determinant of synergistic interaction under simultaneous action of UV light and mild heat in *Saccharomyces cerevisiae*, 123
Sensitized photo-oxidation
kinetic studies of the photosensitized oxidation ($O_2(^1\Delta_g)$-mediated) of tryptophan-alkyl esters in Triton X-100 micellar solutions, 107
Serine protease
photo-reversible binding of thrombin to avidin by means of a photolabile inhibitor, 61
Signal transduction
electric currents evoked by double-flash excitation of the phototactic alga *Chlamydomonas reinhardtii*, 76
Single-strand breaks
activity of 3-carbethoxyangelicin photolysis products, 189
Singlet molecular oxygen
kinetic studies of the photosensitized oxidation ($O_2(^1\Delta_g)$-mediated) of tryptophan-alkyl esters in Triton X-100 micellar solutions, 107
Singlet oxygen
activity of 3-carbethoxyangelicin photolysis products, 189
Solar radiation
influence of UV radiation on the photosynthesis of Arctic macroalgae in the field, 40
Solvent effect
photophysics of disulphonated aluminium phthalocyanine in reverse micelles of Aerosol OT, 18
Sorghum bicolor
a red light signal distinct from the far-red-absorbing form of phytochrome in anthocyanin induction of *Sorghum bicolor*, 70
Streptavidin
photo-reversible binding of thrombin to avidin by means of a photolabile inhibitor, 61
Sublesions
fluence rate as a determinant of synergistic interaction under simultaneous action of UV light and mild heat in *Saccharomyces cerevisiae*, 123
Superoxide anion radical
production of the free radicals $O_2^{\cdot-}$ and $^{\cdot}OH$ by irradiation of the photosensitizer zinc(II) phthalocyanine, 196
Synergism
fluence rate as a determinant of synergistic interaction under simultaneous action of UV light and mild heat in *Saccharomyces cerevisiae*, 123

Thermoluminescence
thermoluminescence studies on the photoinhibition of pothos leaf discs at chilling, room and high temperature, 164
Thrombin
photo-reversible binding of thrombin to avidin by means of a photolabile inhibitor, 61
Thylakoid membrane
protein transport into and across the thylakoid membrane, 1
Thylakoids
involvement of proline in protecting thylakoid membranes against free radical-induced photodamage, 253
Time-resolved luminescence
quenching of singlet molecular oxygen by natural furan diterpenes, 169
Tissue autofluorescence
reconstruction of in vivo skin autofluorescence spectrum from microscopic properties by Monte Carlo simulation, 234
TMA–DNA photoadducts
6,4,4′-trimethylangelicin photoadduct immunodetection in DNA: induction and repair in Fanconi's anemia and normal human fibroblasts, 220
TMA-photoinduced cross-links
6,4,4′-trimethylangelicin photoadduct immunodetection in DNA: induction and repair in Fanconi's anemia and normal human fibroblasts, 220
Transit peptide
protein transport into and across the thylakoid membrane, 1
Transmission electron microscopy
6,4,4′-trimethylangelicin photoadduct immunodetection in DNA: induction and repair in Fanconi's anemia and normal human fibroblasts, 220
Trans photo-isomer
photo-reversible binding of thrombin to avidin by means of a photolabile inhibitor, 61
Transport mechanism
protein transport into and across the thylakoid membrane, 1
4,5′,8-Trimethylpsoralen
toxicity and repair of psoralen adducts in bacteriophage T7, 48
Triplet state lifetime
photophysics of disulphonated aluminium phthalocyanine in reverse micelles of Aerosol OT, 18
Triton X-100
kinetic studies of the photosensitized oxidation ($O_2(^1\Delta_g)$-mediated) of tryptophan-alkyl esters in Triton X-100 micellar solutions, 107
Tryptophan alkyl esters
kinetic studies of the photosensitized oxidation ($O_2(^1\Delta_g)$-mediated) of tryptophan-alkyl esters in Triton X-100 micellar solutions, 107

Ultraviolet light
cross-resistance to photofrin-mediated photodynamic therapy and UV light and recovery from photodynamic therapy damage in Rif-8A mouse fibrosarcoma cells measured using viral capacity, 143
Urinary bladder
the importance of fluorescence distribution and kinetics of ALA-induced PpIX in the bladder in photodynamic therapy, 269

UVA
oxidative stress and in vivo chemiluminescence in mouse skin exposed to UVA radiation, 215
UVB
antioxidant adaptive response in human blood mononuclear cells exposed to UVB, 152
UVB irradiation
biological effects of narrow-band (311 nm TL01) UVB irradiation: a review, 99
UVB light
a red light signal distinct from the far-red-absorbing form of phytochrome in anthocyanin induction of *Sorghum bicolor*, 70
UV-B radiation
UV-B enhancements at Punta Arenas, Chile, 174
UV irradiation
quantum yields of adenine photodimerization in poly(deoxyadenylic acid) and DNA, 81
UV light
fluence rate as a determinant of synergistic interaction under simultaneous action of UV light and mild heat in *Saccharomyces cerevisiae*, 123
UV radiation
influence of UV radiation on the photosynthesis of Arctic macroalgae in the field, 40
involvement of proline in protecting thylakoid membranes against free radical-induced photodamage, 253

Viability
indocyanine green: Intracellular uptake and phototherapeutic effects in vitro, 178
Viral capacity
cross-resistance to photofrin-mediated photodynamic therapy and UV light and recovery from photodynamic therapy damage in Rif-8A mouse fibrosarcoma cells measured using viral capacity, 143

Water oxidation complex
thermoluminescence studies on the photoinhibition of pothos leaf discs at chilling, room and high temperature, 164

ZnPC
production of the free radicals $O_2^{\cdot -}$ and $^{\cdot}OH$ by irradiation of the photosensitizer zinc(II) phthalocyanine, 196
